Mr Pang Seng Yuen proposed and Ms Fiona Tan seconded the motion.

The Chairman then invited the shareholders present to ask any questions they may have on the Audited Financial Statements.

Question 1

A shareholder, Mr Woo Mun Yin (“Mr Woo”) enquired when did the Company noted that it is in a loss-making position. In response, the Group Financial Controller (“Group FC”), Mr Ho Chor Yau (“Mr Ho”) said that the Group was in a profitable position in the first half of FY2023 but it was almost at a breakeven point. The Company continued to monitor on a quarterly basis and incurred losses for FY2023 due to an impairment exercise towards the end of the financial year.

Question 2

The shareholder, Mr Woo commented that the Company’s revenue and gross profit had dropped. He enquired if the Company actively pursue a larger market share in the industry. In response, the Group FC, Mr Ho said that the decrease in revenue was mainly due to decrease in sales, particularly on the General Trade, and the gross margin had decreased approximately 3% from 28 % in FY2022 to 25% for FY2023 due to increase in cost of production. The Company had taken into consideration whether the increase in price will result in a loss of market share. The Brand Marketing Manager in Golden Bridge Foods Manufacturing Pte Ltd (“Golden Bridge”), Ms Ong Shiya (“Ms Ong”) added that the Company had revised its product prices and offset the cost burden to consumers by offering price discount to retain customers. The Company has also tried to introduce new products via new marketing channels to increase its market share. It will continue to create more awareness to its products, and introduce new products.

Question 3

A shareholder, Mr Lee Mun Seng (“Mr Lee”) noted that the administrative expenses remain at S\$5 million and the gross margin is coming down. He enquired about other strategy that the Company will be implementing. In response, Ms Ong said that the Company has new products in the pipeline, with the objective that the new products can capture new markets. The Company is also working towards obtaining more vegan certification on the Group’s plant-based products to reach out to more customers.

Question 4

The shareholder, Mr Woo noted that the cost of marketing and distribution had increased. He enquired the strategy that the Company will take to address this. In response, Ms Ong said that the Company has invested in marketing efforts where more roadshows and fairs are held to increase brand awareness. Ms Ong added that the Company’s entry into Philippines market is still in the early stages and will require the Company to focus its efforts to increase its brand awareness in this market. As such, the Company will have to increase its marketing efforts in Philippines via holding roadshows and product sampling to create more product awareness.

Question 5

OTS HOLDINGS LIMITED

Minutes of the Annual General Meeting
held on 24 October 2023

The shareholder, Mr Woo enquired about the percentage of plant-based products versus traditional products. In response, Ms Ong said that plant-based products in Singapore and Malaysia are less than 10% of the total sales of the Group. Ms Ong added that the plant-based products are currently distributed mainly in Singapore, Indonesia and Malaysia. In addition, the Company is in contact with potential customers in other regions including the UAE, Europe and Australia. The Company has been in touch with government agencies to reach out to overseas distributors and markets, and has participated in fairs overseas.

Question 6

The shareholder, Mr Lee noted that the Company's retail products are positioned with a premium branding and pricing but have been sold to Malaysia and Indonesia. He enquired if the Company should sell to markets like Australia that potentially has higher spending power for such products. In response, the General Manager, Malaysia, Mr Teh Chong Piow ("Mr Teh") said that the Company has a multi-brand, multi-product portfolio with both halal-certified and non-halal products. The flagship brands are "Golden Bridge" and "Kelly's". The products are manufactured mainly in Singapore, hence the production cost is higher. The Malaysian market has faced reduced spending power and higher market competition in recent years. As Malaysia's consumers shift to lower-priced products, the Company had adjusted its strategy by distributing more lower-priced products, partnering with OEM suppliers in Malaysia; and expanding the presence of the Food Services segment within Malaysia.

Question 7

The shareholder, Mr Lee enquired if Golden Bridge and Kelly's are working with overseas manufacturer to produce lower-priced products to sell in Malaysia, and if the Company will become a reseller of other brands. In response, Mr Teh said that the Company will continue the distribution of Golden Bridge and Kelly's products but will distribute more lower-priced range products under the same brands. At the same time, the Company will explore partnering with OEM suppliers in Malaysia to manufacture products under the house brands so as to control and lower some of the costs.

Question 8

The shareholder, Mr Woo asked about the definition of OEM. In response, Mr Teh said that it is a third-party manufacturer to manufacture products on behalf of the Company.

Question 9

A shareholder, Mr Patrick Tan ("Patrick") requested the Company to give an overview of the business under inflationary environment, supply chain disruptions, and changes in consumer taste. In response, the Managing Director, Mr Ong Bee Chip ("Mr Ong") informed that the business environment has changed. The Company has obtained the licence to sell its products in the European market. However, the market conditions in Europe are challenging. The Company has re-formulated its strategy including exploring other countries like Philippines and Indonesia; penetrating the Australia market and starting to sell its products in Costco; and planning to relocate some manufacturing plants out of Singapore to reduce its manufacturing costs.

Question 10

The shareholder, Patrick enquired about the increase in impairment of accounts receivable. In response, the Group FC, Mr Ho said that out of the total impairment of trade and other receivables of approximately S\$0.5 million during FY2023, approximately S\$0.4 million was arising from Delta Bridge Pte. Ltd., the joint-venture company in Indonesia which includes the a shareholder's loan of S\$0.3 million. The impairment is due to the Indonesian manufacturing plant being temporarily shut down during the year caused by the African Swine Fever detected in pigs in Bulan, Indonesia. The remaining impairment of S\$0.1 million is due to the prolonged outstanding period on the accounts receivable, and is in line with the Group's impairment provision policy.

Patrick further enquired whether the shareholder's loan of S\$0.3 million has been announced. In response, the Group FC, Mr Ho said that the shareholders' loan and the shareholders' agreement for the

joint venture in Indonesia have been disclosed in the Notes to the audited financial statements for FY2023. No separate announcement was required.

In response, the Deputy General Manager (“Deputy GM”), Ms May Neo said that the inventories are built to order but the Company will keep a certain level of stocks depending on the demand. On a monthly basis, the Company monitors the inventories level and adjusts it according to the market demand. Inventories level is generally higher prior to the festive seasons.

Question 12

The shareholder, Mr Lee noted that the remuneration mix of the key management personnel shifted to higher percentage of basic salary and less bonus/profit sharing. He enquired the reason for that. The Company explained that the base salary of the key management personnel remains the same as compared to the previous financial year, however with lower profits in FY2023, the bonus/profit sharing portion was lowered.
